Mechanical Variables Measurement — Fluid

- 26 Pressure and Sound Measurement** *Kevin H.-L. Chau, Ron Goehner, Emil Drubetsky, Howard M. Brady, William H. Bayles, Jr., Peder C. Pedersen*
Pressure Measurement • Vacuum Measurement • Ultrasound Measurement
- 27 Acoustic Measurement** *Per Rasmussen*
The Wave Equation • Plane Sound Waves • Spherical Waves • Acoustic Measurements • Sound Pressure Level Measurements • Frequency Analyzers • Pressure-Based Measurements • Sound Intensity Measurements • Near-Field Acoustic Holography Measurements • Calibration
- 28 Flow Measurement** *Richard Thorn, Adrian Melling, Herbert Köchner, Reinhard Haak, Zaki D. Husain, Donald J. Wass, David Wadlow, Harold M. Miller, Halit Eren, Hans-Peter Vaterlaus, Thomas Hossle, Paolo Giordano, Christophe Bruttin, Wade M. Mattar, James H. Vignos, Nam-Trung Nguyen, Jesse Yoder, Rekha Philip-Chandy, Roger Morgan, Patricia J. Scully*
Differential Pressure Flowmeters • Variable Area Flowmeters • Positive Displacement Flowmeters • Turbine and Vane Flowmeters • Impeller Flowmeters • Electromagnetic Flowmeters • Ultrasonic Flowmeters • Vortex Shedding Flowmeters • Thermal Mass Flow Sensors • Coriolis Effect Mass Flowmeters • Drag Force Flowmeters
- 29 Point Velocity Measurement** *John A. Kleppe, John G. Olin, Rajan K. Menon*
Pitot Probe Anemometry • Thermal Anemometry • Laser Anemometry
- 30 Viscosity Measurement** *G. E. Leblanc, R. A. Secco, M. Kostic*
Shear Viscosity
- 31 Surface Tension Measurement** *David B. Thiessen, Kin F. Man*
Mechanics of Fluid Surfaces • Standard Methods and Instrumentation • Specialized Methods
